

# TIGER REVIEW

PUBLISHED MONTHLY BY THE PERSONNEL DEPARTMENT THE FLYING TIGER LINE

BURBANK, CALIFORNIA

Vol. 6 No. 5

November 1951

## NOTES FROM PERSONNEL

By Edna Avery

The BIG DAY finally got here and we are now moved in our new offices and settled(?) What a time everyone had, packing, marking, sorting, and getting things ready to move.

Our first day in the beautiful new building was hectic to say the least. People were wandering around like lost sheep. Voices coming from the hallway outside the Personnel office sounded something like.....  
"Hey! where's our office!.."What's behind this door?"...Where's the Personnel office?  
..!Who has the key to this door?.....  
"HELLO! where are you located now?".....  
A...so on.....

Everyone seems to be more or less settled and we have NAMES AND NUMBERS on all the doors now for easy identification. However, every once in a while the door will slowly open and a face will peer around very shyly then suddenly disappear and the door silently close again.

\* \* \* \* \*

We, in Personnel, were very sad to find that the PAYROLL department had been separated from the PERSONNEL office. We certainly miss those bright and happy faces of VEVA and KRYSITYNA.

Anyone looking for the PAYROLL department will find it located at the west end of the new building on the first floor door #114.

\* \* \* \* \*

An interview with the girls in the new Switchboard and Teletype room was very amusing and enlightening.

When I went in to interview them I asked them for a few words to describe their first day in the new office. Simultaneously they all said, "Phew!"

Finally I managed to get them to say a few more words and the description went something like this:

Etta: "If we rang an extension and the right person answered we nearly fainted."

Edna merely said:"Oh! my.."

Ursula said: "Lights went on and there wasn't anyone there. People would say they were calling from one extension and the light showed another."

Just to add to the confusion of all the extension numbers being changed, they have added a total of FIFTY (50) more extensions to the already busy board.

Things are running smoothly now thanks to the patience, sense of humor and hard work of the girls.

\* \* \* \* \*

The most used expression heard in the new building.

"Oh! it's so quiet here."

(YOU CAN SAY THAT AGAIN AND AGAIN)

\* \* \* \* \*

## SPORTS ROUNDUP

by CLINT GILL

On September 28th the FLYING TIGER GUN CLUB held its first meeting at which time officers were elected and plans discussed. Elected officers were: B. H. Senn, president, M. E. Powell, Vice President, D. M. Torgeson, Sec.-Treasurer, A. Penrose executive officer, and T. Max range instructor.

Shortly after the meeting, the list of the charter members totaling 57 were sent to the National Rifle Association. The N.R.A. will furnish four Garand Rifles and four 22-calibre Winchester Model 75 rifles also targets, ammunition and field telephone, to be used at the range during practice and matches.

The club will use the Legion Rifle Range which is located in Burbank. The Flying Tiger Welfare Committee has consented to pay for the rent of the range and we all sincerely appreciate their co-operation.

At present, members are filling our applications for membership in the Legion Rifle Club and they intend to have their first shoot in a week or so. The instructors are appointing committees and working out the details to see that safety rules and Range and N.R.A. rules are followed properly from the beginning.

Biggest problem at present is obtaining a room or building in or near the hangar for storing equipment, guns, etc. This is a must and has top priority in their plans for the future. Can ANYBODY help???????

Since the Charter was sent in there have been many requests around the hangar and offices (which, incidentally, are now well represented in the club) for membership. They hope to be able to admit new members as soon as they have their present set up operating, and will post a notice of opening for membership at that time.

MORE ABOUT THIS UP AND COMING CLUB IN THE NEXT ISSUE. MANY THANKS TO BERNIE SENN FOR THIS FINE BIT OF INFORMATION.

It seems that three members from the Inspection Department namely Al PENROSE, Hank GARCIA and Walt LOEFFLER recently returned from a very successful DEER hunt. They teamed up with Al's brother SID and father EARL for this sojourn and it seems that there was plenty of venison around that camp-fire as they each bagged a buck for a total of five. Not bad, fellows!

\* \* \* \* \*

Also understand Mr. Dickerson from the Hydraulic shop was a successful DEER Hunter too.

\* \* \* \* \*

WALT LOEFFLER and DOC POWELL were out on a BEAR hunt the week of the 20th. They didn't seem to have any luck with the bruins. They saw signs of 'cat tracks but didn't locate any of those either. Better luck next time.

\* \* \* \* \*

The Inspection Department is telling a fish story that is typical of all fish stories. The more they tell it the longer it gets. Ten of the fellows from Maintenance went fishing the other day. Namely, PENROSE, MAX, MEADOR, COMPATO, MOBLEY, BOWER, MARUYAMA, FELTENBERGER, THRASHER AND WORIDAHN. Seems they didn't catch anything worth telling about except a BIG GREY-BLUE SHARK. The first time we heard the story it weighed #135 the next time it weighed #200 and at press time it had gained #50. Now fellows, Let's get together.

(This information came to us through the courtesy of Pat Compato. He says he has pictures to prove it.)

\* \* \* \* \*

Haven't heard anything from you other stations since last issue. Certainly would like to get a few items. Send them to GILL at Burbank Maintenance Department.

\* \* \* \* \*

DON'T FORGET THE COMMUNITY CHEST. LET'S ALL HELP

SALES REPORTS by Katherine M. Smith

FRANCIS, The Mule, and FRANCES The FTL Stewardess, had an interesting talk when they met at our BUR hangar as the Flying Mule prepared to leave for NY to make his next Universal Picture "Francis Covers the Big Town." "Say something, Francis" pleaded Frances. "I'm saying nothing for publication" said Francis. "This is my first airfreight flight and I'll say nothing until I find out more about Flying Tigers' service!"

\* \* \* \* \*

And speaking of NY. We are all sorry to lose NICKI WILSON who has been with FTL for almost five years. Nicki, we hear, is going to be busy helping her husband, Dr. Wilson, set up his new practice. Lots of luck to you both. George Dart's new secretary is HELEN WEYANT, previously mentioned in this column. CLARA BRAITMAN, is succeeding Helen. Clara is a graduate of Hunter College and was formerly with Farrand Optical and General Electric - two good FTL accounts. NORM SCHIFFMAN, back from a Florida vacation welcomed an old classmate from NYU - BERNIE CULHANE. Bernie is doing a very good job for NY Customer Service.

\* \* \* \* \*

CLE - WALT BOWMAN & BUD SUTTER recently visited Erie, Pa. and were toured round the industrial section and to points of interest by a helpful member of the Erie Police Department. Walt and Bud are now Honorary Members of the Erie Fraternal Order of Police! The new building in CLE is now in "Process", the CLE City Council having approved the plans and the land has been surveyed and staked.

MARGARET POCZE surprised everyone by showing up on Sept 24th as MRS BURT MURRY. Congratulations Margaret and don't make a Third Fall - we heard about the Horse Fall too - all in the same week!

\* \* \* \* \*

BOB welcomes a very lovely new member to the Tiger Family - CAROLINE "RUSTY" HILL, who became MRS AL FARR on October 5th. The wedding was held at the home of the Bride and the Reception at the fashionable Salem Country Club. Caroline, in soft pink satin with matching cap and out-in train, was attended by her sister, MRS P. HERNDON, who wore a gown of rust velvet and net. AL, almost as "lovely" in Tails, was best-manned by JIMMIE FISHER. FTL was represented by Hal and Mrs Thurston, Noel and Mrs Gilbert, Clair Gillis, and Faggie Mackay who says "Everyone had a wonderful time, but loggone it I didn't catch the Bride's Bouquet." (Note We caught a glimpse of the newly-weds in BUR as they went through en route to Hawaii on their Honeymoon and we all wish them lots of happiness.)

\* \* \* \* \*

Nothing scabbing in FTL, they report. A few visitors however livened up their otherwise drab (we conclude) life - DOROTHY PHILLIPS from GTO on a custom tour. (We heard Dorothy made it over to Europe). RUSS PARK of the National Guard in to say hello just missed HEPB NIDMAN who (it seems to us) is always "on leave" and showing up at FTL. BOB MORAN made a quickie trip to the West Coast and Art Breyfofle livened up the situation by speaking before the Advertising Funeral Directors of America. Ho Hum Ziggy O'Connell.

\* \* \* \* \*

HELEN DOONE, OAK, says "Here comes that Man again" meaning "Dorby" Cornelison is back with Sales once more. He transferred to Traffic in June and back to Sales in October. Something interesting must be going on up in SFO as at this writing GREGG JOHNSON, LEN KIMBALL AND ERNIE KRUTTSCHITT are visiting our northern station. The new FTL trucks now operating in SFO and OAK have added a big selling point to our service.

OAKLAND is bursting at its seams with, VAN HUPD says, 350% expansion. BOB BLANKS, from Northwestern Mutual Life and KNOXES HALL from American Trust have been added to OAK Sales while a new driver, SAM COMFORT, is really picking up things! Van says Sam seldom shows up in the evening without unexpected shipments he has picked up on his own. Van also says that any move to transfer Sam to SFO will start a major revolution!

\* \* \* \* \*

Best wishes to WALT BOWMAN and SHIPLEY KRUEGER of CLE who have passed the 2-year mark with FTL.

(Please continue on Page 4)

## Sales Reports (Cont'd from Page 3)

SAN is having troubles! "The Bowling Team", reports BILL KENDEL, "was doing quite well until RAMSDEN started going to night school to increase his knowledge of transportation. He was our Mascot. Now things aren't so good". Just a case of Brains vs Brawn. (P.S. TWX just in says "FLYING TIGER WON THREE GAMES LAST NIGHT. OUR BOWLING IS GETTING BETTER".... Well, that's fine!

\* \* \* \* \*

GERRY JOHNSON, CAK, sends his Regards to All the Sun Kissed Dolls at BUR who he hopes to see in the near future. "It's getting rather nippy around the Buckeye State at the moment and BUR looks rather good." The Air Fair at CAK airport was a huge success with an attendance of 150,000. Our ship was on view, loaded with IBM Machines and aircraft engines making an impressive display. About 900 people went on board. DON BACON brought the forklift from CLE which was used as an elevator for our guests.

\* \* \* \* \*

GEORGE ZETTLER, DEN, made two very successful trips to Salt Lake and Grand Junction, flying up on Frontier Air Lines and making a joint "blitz" with Mr. D. T. COOK, District Sales Manager for FAL. This is brand new territory for FTL and George reports they were very well received. Future business from department stores, radio parts suppliers and army and navy contacts looks good as a result of this trip.

\* \* \* \* \*

MAYO THOMAS is never at a loss. Recently he attended an all-Slick Airways party at the Valley home of Mr Culley Wilkins, Slick's VP Sales. Shortly after Mayo's arrival the two small Wilkins offspring appeared wearing FTL Coolie Hats. Came bedtime they asked their mother if they could take the hats off to go to bed because, they explained, "That man gave us 25¢ to keep them on all evening".... Denny Ramsay (Mayo's secretary) left to go into the insurance business. After 5 weeks the vacancy has been filled by GLADYS GABLE, formerly with Lockheed Plant Engineering and the Army Engineers at Jacksonville, Fla.

LOLA ROBINSON has finally swapped the "Red Demon" for a new Pontiac Catalina which she and ROBBIE "flew" out from the factory. It's real "posh" with red leather interior 'n all. Too bad Robbie can't enjoy it - he's now station manager away over in Honolulu!

\* \* \* \* \*

Remember! Gravediggers, not salesmen, wait for things to happen! So...

Happy Shipping....

## STUFF ABOUT STATIONS &amp; PUBLIC RELATIONS . . .

EVERYONE KNOWS that the Tigers do things in a BIG way. We've proven it again by ordering DC-6A's. These Douglas Liftmasters are the largest commercial cargo ships in existence and the Tigers' have made the largest order ever placed for them. With Tiger modifications they will be able to carry up to 40,000 pounds of freight.

\* \* \* \* \*

\$30,000,000 IS A LOT OF MONEY! You bet it is! - But that's how much credit union members saved in interest last year alone, by borrowing from their credit unions. Just stop and think about this for a minute--credit union members would have had to pay out \$30,000,000 more in interest if they had no credit unions to borrow from, and had to go elsewhere for credit.

The credit union serving Tiger employees is one of 14,000 doing this worthwhile job. One important reason for their success is the co-operation they receive from far sighted businessmen who encourage credit unions in the factories, stores, offices, packing houses and shops of North America.

Today, in the Western Hemisphere alone, there are 6,000,000 people using credit unions to meet their needs for small loans in an honest, low cost way, throughout Canada, the United States, Hawaii, Alaska, the Canal Zone, Puerto Rico, Jamaica, Trinidad, British Guiana, the Dominican Republic and the far away Philippines.

\* \* \* \* \*

WE DON'T CARRY COALS TO NEWCASTLE, but we do carry coke to Las Vegas. In the past we've even carried gravel! Soup to nuts, Yes?

\* \* \* \* \*

BELIEVE IT OR NOT, some of us up here in the new building are homesick for the hangar! Guess the luxury of it all is too much for us. I know it isn't that we miss dodging props, ducking under planes or any of the other things that were everyday routine at the Terminal. However, since the female of the species seems to be complaining most, we've got a horrible suspicion that it may be those long, low whistles that the gals were subjected to when crossing the hangar. Who sez they don't like being whistled at?!

Terri Buckely . . .

ACCOUNTING FOR ACCOUNTING

By Alba Mungo's helper Friday (and a lot of other days.)

Biggest news from this section of course is about our correspondent herself. It was the marriage on October 20th in a Cleveland church of our amiable ALBA to her beloved JOE from across the sea. Actually it was ALBA's second wedding--to the same man however. Splice number one was tied in a civil ceremony more than a year ago when ALBA flew more than six thousand miles to climax a romance that had its beginning when she first met JOE who had been captured by the British in the North African campaign and later transferred to a prisoner of war camp near her home town of Cleveland, Ohio. Everyone in the department joins in wishing them a lifetime of blessing and happiness.

\* \* \* \* \*

Its slightly wonderful to tackle the day's work in our spacious, well-lit, well-cooled, well-heated new offices. However, if you must rush across the floor it would seem advisable to remove shoes and stockings for safer progress--or maybe they'll start using non-skid wax to improve our apprehensive ambulation.

\* \* \* \* \*

Newest additions to our department are:

BARBARA HAMILTON our latest feminine addition. She is a stenographer and formerly worked for Sky Coach. BARBARA is a native of San Francisco but is now a devotee of Southern California.

TED WISE newly hired Auditor, previously toiled for Pan American Airways and the State Board of Equalization. NORMAN TODD says TED is a fine family man too, and NORMAN should know. HAL BROUK on the other hand is a cogent argument for the blessings of bachelorhood.

\* \* \* \* \*

NEWS BY FREIGHT BOAT department..... GUY RICHARDS now working alongside FRANK WHITE in the gasoline vouchers department is one of those self-effacing ex-marines who has had very little to say for publication but

we're determined to get in a few lines about him and apologize for our negligence in our previous columns.

\* \* \* \* \*

From File #13: Our new file girl, ROSETTA MOUNTFORD, says work has been so heavy lately that she is beginning to hear strange invoices.

\* \* \* \* \*

New car aristocrats: SHIRLEY SCHAMP in a slinky new green HUDSON, and BETTY AVERY with a new grey PLYMOUTH PARTISAN.

\* \* \* \* \*

FRANK SMITH says it was so hot in Tujunga during the world series that he saw a coyote chasing a jack rabbit and they were both walking.

\* \* \* \* \*

DON JOHNSON expecting a new exemption before too long. Likewise EMMET BURKE who says he'll trade Don sight unseen. Burke already has two very pretty little girls. Beverlei Marin is eagerly awaiting cigar passing time.

\* \* \* \* \*

We have an addition to the Accounting department since we have moved to the new office building. The PAYROLL department namely VEVA TEMPLE and her helper KRISTYNA HAUGEN have been moved from the PERSONNEL department. Nice to have you girls with us.

\* \* \* \* \*

Just a word of advise in passing. In case you ever get locked in the new vault, don't forget to follow the directions on the inside of the door. (Be sure the light is on when you get locked in, so you can read the directions)

\* \* \* \* \*

It's Red Feather Campaign time again and we'd like to take a little space and time to add our words to the others. A donation to the Community Chest will be a donation to not one but through them to eighteen different agencies. Lets all give.

HEARD & SEEN  
by  
Shelley Green

AT LONG LAST, we are moved into our new building. I wish all of you away from Home Base could see it - it's really quite nice. When you do come to Burbank, be sure to drop by 10811 Sherman Way. The moving was accomplished by our own personnel and a grand job was done by all. GENE HEAD was in charge & he particularly wants to thank RALPH STUMP & MANNY MARQUEZ for their cooperation in planning & executing the move. He also THANKS each and every person who was involved in the transfer for their EXCELLENT work.

The first MONDAY that everyone was located in the new building, LAKESIDE FLORISTS, who did the planting in our lobby and on the exterior, were KIND enough to send a GARDENIA corsage for every woman employee. What a nice GESTURE!

I HEAR that LOUISE WAUGH of Burbank Radio, is driving a 1951 CHEVROLET. Hope you like it, Louise. I know OTHERS who do!

And SPEAKING of cars, DICK SHRODE of the Radio Shop, has joined the ranks of sport-drivers, having just taken delivery of a new red MG. Whassa matta - don't you like AMERICAN cars, Dick?

EVERYONE here extends a hearty WELCOME to JOHNNY HAROLD, our new mail clerk. You should see the specially rigged bicycle he has to transport him between the Hangar and the building!

The PURCHASING DEPARTMENT has moved into its new quarters at the Hangar, and invites inspection from everyone.

I understand that EDNA AVERY, Personnel Dept., will be leaving us on November 15. We will miss her very much - the TIGERVIEW especially. She has done a remarkable job of editing, and we all appreciate it.

A letter from SUE WARNER says they aren't completely settled in Georgia yet - and she DOES miss FTL, 'cause she hasn't anyone to FIGHT with. Why - Sue!

IN MEMORIAM. B. H. GASS, former co-pilot based at Newark - killed in action in KOREA.

I HEAR that the 10-year old daughter of PHIL DAVIES, International Operations, was stricken with polio not long ago and required an iron lung. She has shown rapid improvement, however. The Welfare Fund sent her a TONI DOLL - hoping that it would encourage her to use the arm that is paralyzed. Believe me when I say that EVERYONE of us extends our best wishes for her COMPLETE recovery.

INCIDENTALLY, our Employee's Welfare Fund is available to everybody. If you people at the other Stations will notify ESTHER COY in the event of illness of your personnel, she will be glad to send flowers, or even give cash in cases of extreme need. HOWEVER, it is only when she is advised that she can do her bit from the FUND.

I HEAR that JOSEPHINE PETROSKI and D. A. ELFERDINK have joined FTL as members of the Radio Dept. WELCOME, friends, welcome!

VIRGINIA EWANS is a new face in the Purchasing Department. She is assisting MARIE MILLER in her varied duties. Also, Virginia is engaged to marry HAL HAMMOND of our Sales Dept, sometime in December. CONGRATULATIONS to you both!

I HEAR that J. L. HIRSCH, Radio Dept., has traded the San Fernando VALLEY and has moved to the more exclusive BEVERLY HILLS. Hope you like it there - and don't mind the LONGER drive!

AL JANSEN, Director of International Operations, was at Burbank for a couple of weeks. It was nice to see him once again.

I HEAR that PAT SOLEM who recently came to work in the Purchasing Dept., is leaving for COLORADO. It's nice there - but C-O-L-D in the winter. B-r-r!

It's COMMUNITY CHEST time again. It's motto is "EVERYBODY BENEFITS - EVERYBODY GIVES." Let's ALL give as much as we can possibly afford. Who KNOWS - we may need to call on it for help one day.

I HEAR that EDNA WETTENGEL, Switchboard Operator, is leaving us. We'll miss you, Edna. CLAIRE SMITH is taking her place, and we give her a great BIG welcome.

Mr. MOLDAVSCHI has returned from a trip East, and fended off a bout with the pneumonia bug. Glad you're feeling better.

RUMMAGIN AROUND  
THE READY-ROOM

by Janet Olson

REPORTING FOR DUTY - - Vacation over time to go back to work - - first off I have to fill this page up - not so easy when I haven't been here to get the latest dope - Olson Special Charter to Idaho departed on schedule Oct. 12th. with lay-over at Bishop, Calif. for crew rest - arr. 1900 PST at Idmport, Idaho. -Sunday took drive to top of South Hills to get view of MAGIC WILLEY in all it's fall glory - I really seen glory - if I were a poet I could give you a flowery discription - but I am not so guess you will have to go see for your selves some time - spent three days at the cabin on Baker creek above Sun Valley - snow caped mountains in the back ground - ice along the banks of the creek and a big log fire burning with a turkey roasting in the oven - sure was nice not one airplane in the sky until we got down to Glenns Ferry - then the boys from Mountain Home Air Base kept me busy running to the door to see what was over head - Mr. O says I am just like a wild fire horse - hear an airplane an I am on my feet - duck hunting on the mighty Snake River was pretty good - at least we brought home some ducks Mr. O. shot - the deer meat was from some one elses deer - also got some pheasant, which is very good eating - along with all the wild game we collected some home canned food, so the Olsons will eat well for a time this winter - return trip was made via Carson City, Nevada and any time one of the ranchers up that way wants to give me his place I will be glad to accept - all in all it was a very nice trip with no car trouble, but I am sure glad to be back to my own bed and I could have slept in Monday morning, which I couldn't seem to do when I had the chance.  
Nuff of this stuff ---- Bye now

CHIEF STEWARDESS

BILLIE WELSH

RESIGNS TO BE WED

There comes a time in every girl's life when she has to make up her mind about taking the "Big Step" Come November 24th. Billie will change her profession from hostess to many to hostess of one with some cooking to be done on the side. We all will miss Billie very much, as she has been FTI First Chief Stewardess and a very good job she has done - you may have had a chance to see the new uniform that the stewardesses are wearing and which Billie designed - I think they are very nice - we have had several outside PTL call to say that the uniform was really outstanding - so take a big bow Billie - we of Flight Operations extend our congratulations to the bridegroom on making such a fine choice and the best of luck to both of you.

\*\*\*\*\*

Miss Olive Parker has been appointed as the Chief Stewardess to replace Miss Welsh - our best wishes to you Olive in the new job.

\*\*\*\*\*

NEW DIVISION - Chief Pilot Ed Pinke has set up for business in Chicago with the following pilots to help him keep the flights going: Captains Ewald, Reed, Smith, Rossa, Richards, Petrick, Chambers, Hassig, and Knitter- Co-pilots Heller, Pagenini, Morreale, Whitney, Deveraux, Bassett, Rooney, Brown, Krueger, Stegeman, Tainio, Baker, Moffett.

Hi! Doll

Who'll be my  
CherCheur on this  
date?

Who! GEORGE.....?

Never mind Sweetie,  
I'll take it myself!

MORE ABOUT PERSONNEL FROM PERSONNEL

by Edna Avery

I made a tour around the new offices and into the new TABULATING DEPARTMENT. Found them all in very good spirits.

Their new "SPOT" is such an improvement over the old one. It is bright, light and roomy.

DICK YUNG tells me they have ordered a number of new pieces of equipment which will greatly assist them in their struggle to keep up with the ever increasing volume of work.

They are also going to put up some partitions which will (they hope) help to cut down on the noise of the machines.

\* \* \* \*

The response to the advertisements of the CREDIT UNION were very gratifying. Just goes to prove once more the power of the press. Anyone still putting it off can find RICHARD (CREDIT UNION) YUNG in room #113 (they aren't superstitious) of the new office building.

\* \* \* \*

Made a call on Nurse DUKE and found we are having quite a few eye injuries these days. She would like me to remind you "Make sure you have proper eye protection when you are working around STRIPPER. You only have two eyes. Please take care of them!"

Second First Aid Note: "Most people do not know how to lift heavy equipment and end up with severe back injuries. If you don't know the proper way to lift---DON'T." Check with Nurse DUKE for complete instructions and save your achin' back.

\* \* \* \*

Word from the INSPECTION DEPARTMENT reveals that the WURDAHL family is expecting a new exemption very soon.

\* \* \* \*

LEE GIRONE wants to thank each and everyone for their help and kindness during his recent illness. He is very grateful to all.

\* \* \* \*

COMMUNITY CHEST time is here again and we want to ask each one of you to help in the drive. Your generous contributions are so greatly needed by this fine organization.

Contributions to the Community Chest are distributed not to just one agency but through them to eighteen fine agencies.

Some of these are: Boy Scouts, Camp Fire Girls, Children's Hospital, Orthopaedic Hospital, Salvation Army, Girl Scouts, McKinley Home for Boys, and the YMCA.

LETS ALL HELP \* \* \* \* \* LETS ALL GIVE.

\* \* \* \*

We want to extend our sympathy to Mr. A. Logatcheff of the INSTRUMENT SHOP, whose wife very suddenly passed away.

\* \* \* \*

Some people certainly have a lot of faith in the California weather. Carpenters have taken off part of the top of the Quonset Hut and some damp sunshine leaked through the other day. We hear that RAY RYAN had to wear hip boots to get to his desk.

\* \* \* \*

We are trying to catch up with DOT PHILLIPS long enough to get a short story about her recent trip to EUROPE. Hope we can get it by next issue.

\* \* \* \*

CONGRATULATIONS are in order for ERNIE DOYER and ANDE FRETITAS for their promotion to the INSPECTION DEPARTMENT.

\* \* \* \*

TRANSPORTATION SCOOP:

PAUL GRACE is riding to work on a scooter these days.

\* \* \* \*

Looks as though there is just enough space left in the paper to say good-bye. I have certainly enjoyed working for the TIGERS and I know I'll miss all of your happy faces. GOOD LUCK TO ALL OF YOU.

*Sincerely E. Avery*
